

and trained in the assessment, development, utilization, and conservation of ocean and coastal resources. The purpose of this section is to provide guidelines regarding the content of applications for Sea Grant Fellowship funding.

(b) Funding will be made to eligible entities (see § 917.10 of this part) that are selected to award and administer Sea Grant Fellowships. Fellowships will not be awarded directly to students by the Office of Sea Grant. The entity receiving Fellowship funding will select the students to be awarded the Fellowships and will handle the administration of the Fellowships.

(c) Proposals for Fellowship funding will be expected to address (1) the nature and focus of the proposed Fellowship Program, (2) the utilization of institutional or other appropriate resources in the education and training of Sea Grant Fellows, (3) the method of advertising availability of the Fellowships, (4) the method of selection of recipients, and (5) the terms of tenure and method of determining continuity of tenure.

(d) Innovation and uniqueness will be significant factors in the determination of which proposals will be funded. Another factor considered will be the potential of the proposed program to stimulate interest in marine related careers among those individuals; for example, minorities, women, and the handicapped whose previous background or training might not have generated such an interest.

(e) The total amount that may be provided for grants under the Sea Grant Fellowship Program during any fiscal year cannot exceed an amount equal to five percent of the total funds appropriated for the Matched Funding Program for that year. Fellowship programs are subject to the requirement of a minimum of 33½ percent matching funds from non-Federal sources to which all Matched Funding Program projects are subject. Indirect costs are not allowable for either the Fellowships or for any costs associated with the Fellowships.

Considering the variations in the cost-of-living and the differences in tuition, fees, etc., between one college or university and another, the amount of

money requested and awarded per Fellowship may vary.

Subpart C—National Projects

§ 917.20 General.

(a) 33 U.S.C. 1125 requires the Secretary to identify specific national needs and problems relative to ocean and coastal resources. This responsibility has been delegated to the Administrator. The designation is intended to focus public attention on needs and problems of the marine environment that are considered to be of particular national importance at a given point in time.

(b) 33 U.S.C. 1125 provides for the funding of national projects in marine research, marine education and training, and marine advisory services that are designed to deal with the national needs and problems concerning ocean and coastal resources identified by the Administrator.

(c) The Administrator will identify the national needs and problems apart from considerations of Office of Sea Grant funding for "National Projects" responsive to national needs and problems that are identified.

§ 917.21 National needs and problems.

(a) The Administrator will, periodically, publish in the FEDERAL REGISTER the identified national needs and problems with respect to ocean and coastal resources at a given point in time.

(b) Suggestions from the general public as to the identity of national needs and problems may be submitted to the Office of Sea Grant at any time. These suggestions will be reviewed by the Office of Sea Grant and the Sea Grant Review Panel, and those receiving a positive critique will be forwarded to the Administrator. In addition, suggestions concerning the identification of national needs and problems will be requested from the Sea Grant Program Directors.

(c) The Administrator has identified the following as currently being national needs and problems with respect to ocean and coastal resources: global and regional climate and primary productivity.

(1) Improve the prediction of extreme natural events and their effects on
